

APS Journal Legacy Content

A one-time fee for perpetual access to over 3,700 issues from 13 peer-reviewed research & review journals!

The APS Journal Legacy Content is the corpus of 100 years of historical scientific research from the American Physiological Society research journals. This package goes back to the first issue of each of the APS journals, including the American Journal of Physiology, first published in 1898. The full text scanned images of the printed pages are easily searchable. Downloads quickly in PDF format.

APS Journal Legacy Content

Tier Definitions

TIER	CATEGORY	DESCRIPTION
1	Academic	High school or pre-collegiate academy, single location, not school district level
	Medical	Health care provider, private practice or clinic
	Government or Nonprofit	Public library, museum or archive, nonprofit single office non-research government organization
2	Academic	Two- or four-year college, community college, or technical college without graduate program
	Medical	Community level hospital or outpatient clinic (non-teaching or research)
	Government or Nonprofit	Charitable organization, professional society, independent research library, local or municipal government office
3	Academic	University and research programs offering Master and Doctorate programs
	Medical	Teaching or research hospital
	Government or Nonprofit	Local government agency or ministry, private or nonprofit research institute
	Corporate	Small, single-site organization
4 CONTACT PUBLISHER	Academic	Large university system, multi-campus, centrally administered academic institution (not a consortium or shared digital library, but a single organization or institution, public or private, with one or more campuses in the same city)
	Medical	Small healthcare network
	Government or Nonprofit	Regional government agency or ministry, private, nonprofit research organization or healthcare network
	Corporate	Single organization with regional campuses, not multi-national
5 CONTACT PUBLISHER	Academic	National or regional university system, consortia of academic libraries (includes groups of universities who share access or large state-wide licenses)
	Medical	Large healthcare network, consortia of medical libraries and affiliated hospital (includes groups of medical libraries or hospitals engaging in shared access)
	Government or Nonprofit	National government agency or large research institute using a shared network
	Corporate	Large organization or corporation with a domestic presence in several locations or an international presence in several countries
